- Redesign Pop-Up Forms

EDUCATION

Bachelors in Computer Science Engineering (B.Tech) — 2019 - 2023
KIIT College of Engineering - MDU, Rohtak

Senior Secondary in Science — 2018 - 2019
Drona Public School - Gurgaon

PROJECTS

VHL (HTML, CSS, Bootstrap, Git)

- **Features:** Streamlined book structure generation using HTML, CSS, and Bootstrap, reducing manual effort. Customizable templates and responsive design foster creativity and accessibility in book creation, enhancing user experience and productivity.
- **Impact:** Accelerated timelines by up to **3+** months, showcasing frontend development proficiency and significant cost savings.

Readify: Ecommerce (ReactJS, Vite, Tailwind) 🔗

- **Features:** React.js-powered single-page app delivers an intuitive design, seamless navigation, a diverse product catalog, and swift cart functionality, ensuring a smooth and engaging shopping experience.
- **Impact:** Demonstrated proficiency in React.js and frontend development ensures enhanced user engagement, increased conversion rates, and fosters brand loyalty, leveraging streamlined navigation and swift page loads for a competitive advantage.

Drama: movies database application (ReactJs, SCSS, API, Redux) 🔗

- **Features:** Orchestrated a React-driven movie database website, fortified with Redux and database APIs, executing **10+** requests for robust data acquisition and seamless user interaction.
- **Impact:** Significantly enhanced user experience, accessibility, and career portfolio, streamlining navigation, ensuring accurate data retrieval, and garnering positive user feedback.

Speech Recognition Website (Tailwind, Vite, ReactJs) 🔗

- **Features:** This speech recognition marvel translates spoken words into text with lightning speed, employing an ingenious fusion of customizable settings and responsive design.
- **Impact:** By seamlessly converting speech to text in real-time, leveraging React, this website enhances accessibility, communication efficiency, and user satisfaction, while also demonstrating technical prowess and innovation, positioning you as a proficient and forward-thinking developer.

SKILLS

Languages
HTML, CSS, SCSS, JavaScript

Technologies
ReactJs, Tailwind CSS, BootStrap, Material UI

Others
UI Design, API Integration(Rest API)
